WILL E. GIBSON, AUDITOR  
 CITY OF PORTLAND, ORE.  
 BY \_\_

Dear Mr. Gibson:

We are returning to you the protests against the settlement of negroes in the Albina district, as they have now served our purpose.

Yours very truly,

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

Mrs. V. G. O'Hara  
 M. O'Hara  
 John Shannon  
 Jean Tassan

Laura V. Mersick 2227 N Vancouver Ave.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

<u> </u>	<u> </u>
<u> </u>	<u> </u>

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

Walter Finke	4128 N. Montana, Ave.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

To The Honorable Mayor and City Commissioners:

We, the undersigned members of The Central East Portland Community Club and citizens of The North and North-East Area of the City of Portland, do hereby protest the projected plan to settle a negro colony in the district known as Albina, and its surrounding territory, for the following reasons:

1. There are now other vacant localities open for such a project.
2. It is not possible, for reasons of moral and physical safety, and the preservation of public decorum, to make a success of such a project.
3. To settle negroes in an established residential community is to devalue property, and to make such property undesirable for further residence by its present owners, thus depriving them of their homes.
4. To pre-empt the present Community Club House, and park properties for negro use is to wrongfully destroy the purpose of the late Mike Lillis and all those who worked with him for the past twenty years, and to rob the children of the neighborhood of the benefit of their labors.
5. Furthermore we petition that any and all dwellings erected in the vicinity be allocated only to white workers.

Therefore we respectfully petition your honorable body to take all necessary measures to end this threat to the peace and security of this community.

The Honorable Mayor and City Council

City of Portland, Oregon

We, the undersigned members and representatives of the Amici Club, do hereby petition you to exert every means to prohibit the importation of negro workers.

Furthermore, we ask you to prevent the housing of negroes in the Albina or North Side district. There are housing projects north of our city which if suitable for white workers should be suitable for the colored workers who may now or in the future demand housing.
